Circumference Of A Circle Worksheet

Name:

If the radius of a circle is 2 inches, then its
Circumference = inches.

If the diameter of a circle is 2.5 centimeters, then its
Circumference = centimeters.

If the circumference of a circle is 314 decimeters,
then its Diameter = decimeters.

If the circumference of a circle is 10 square feet,
then its Diameter = square feet.

If the diameter of a circle is 9 centimeters, then its
Circumference = centimeters.

If the radius of a circle is 15.70 feet, then its
Circumference = feet.

If the radius of a circle is 3 centimeters, then its
Circumference = centimeters.

Circumference of A Circle Worksheet

If the diameter of a circle is 50 millimeter, then its
Circumference = _____ millimeter.

If the radius of a circle is 7 centimeters, then its
Circumference = _____ centimeters.

If the radius of a circle is 50 millimeter, then its
Circumference = _____ millimeter.

If the diameter of a circle is ($7 / 22$) square feet,
then its circumference = _____ square feet.

If the circumference of a circle is 15.7 inches, then its
Diameter = _____ inches.

If the radius of a circle is 8 centimeters, then its
Circumference = _____ centimeters.

If the radius of a circle is 1.5 inches, then its
Circumference = _____ inches.

Circumference of A Circle Worksheet

If the diameter of a circle is 12 centimeters, then its
Circumference = centimeters.

If the radius of a circle is 5 square feet, then its
Circumference = square feet.

If the circumference of a circle is 10 centimeters,
then its Radius = centimeters.

If the radius of a circle is 12.50 inches, then its
Circumference = inches.

If the radius of a circle is 4.50 decimeters, then its
Circumference = decimeters.

If the circumference of a circle is 20.50 feet, then its
Diameter = feet.
